Below the header, there are three sections: 'Fund Name' with a text input field containing 'testleader123', 'Traded Symbols' with a dropdown menu showing '28 selected', and 'Description' with a text area containing 'testleader123'. At the bottom right, there is a green 'SUBMIT' button with a black arrow pointing to it.

4. Now, you can see yourself as a leader in the homepage. Click on the logo of Fxcoliseum to back to home page as shown in the screenshot below.

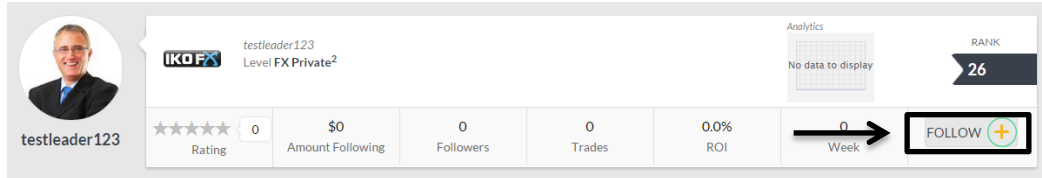

5. In “[Top Gladiator](#)” list in homepage, scroll down and you can see your leader account is in the list.

A screenshot of the 'Top Gladiator' list. The user's profile is shown with a circular profile picture, the name 'testleader123', and the text 'IKOFX Level FX Private²'. Below the profile, there are statistics: Rating (0 stars), Amount Following (\$0), Followers (0), Trades (0), ROI (0.0%), and Week (0). A 'FOLLOW' button with a plus sign is on the right. A black arrow points to the user's name 'testleader123'.

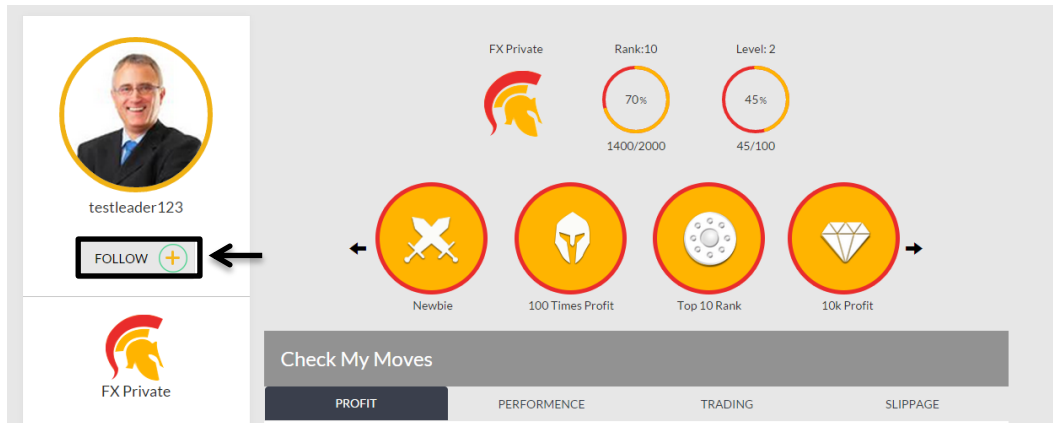

6. As a leader, your trading history will be recorded when there is follower following you.

Fxcoliseum Follower guide

1. Instead of becoming a leader, you can become a follower in Fxcoliseum. After you have linked your account by following the “Fxcoliseum User Guide” in previous pages in this document, you can follow a leader by clicking the “FOLLOW+” icon as shown in the screenshot.

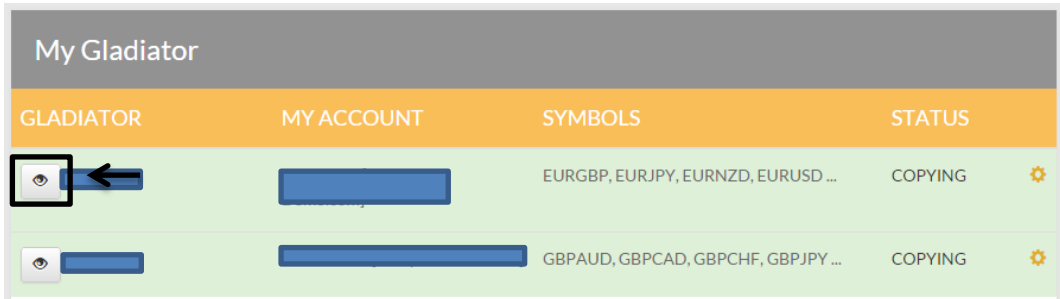

2. After clicking the “FOLLOW+” button, you can see the performance of your leader by looking at his trading statistics. If you wish to follow him, press the “FOLLOW+” button in the page.

3. After clicking “FOLLOW+” button in the page, you will be brought to a page to create your copy rule. After filling up the copy rules, please tick “Accept Terms & Conditions of Fxcoliseum” and click “SUBMIT” button.

The screenshot shows the 'CREATE RULE' form. It includes a warning message: "Warning: Investing in Forex has more risk and you may be loss all your money soon, in share system I will trade very low risk and don't expect profit more than 20% per month." The form fields are: Name (testleader123), Followers (0), Amount Following (0), Trading Account (dropdown), Copy Rule Mode (Copy One to One), Copy Symbols (28 selected), Min Lot (0.01), Max Lot (5000), Hang Time (20), and Place Orders Retry No. (5). A checkbox for "Accept Terms & Conditions of Fxcoliseum" is checked, and a 'SUBMIT' button is highlighted with a red box and an arrow pointing to it.

- Now, your account has already followed the leader. You can also see the message showing successful following status.
- However, your account may not be ready to copy the positions that leaders have opened. You need to click your [username](#) at the right top of the page, then go to the left tab “my gladiator” aka “my leader”, then you shall see the screenshot below. Your account is ready to copy if and only if the “STATUS” becomes “COPYING” from “PENDING”. Usually this takes less than 5 minutes for the system to set up your account to follow the leader.

- If you click on the eyes icon as shown in the screenshot above, you can see all currency pairs you are copying the leader, copy rules can be changed here.

If you change the copy reverse from “No” to “Yes”, that means that when the leader puts a buy-order, you will put a sell-order instead!!

If you change your copy “Mode” from “Copy One to One” to “Copy with fixed no. of lots”, that means, for example, no matter your leader opens 1 lots, 2 lots, 3 lots or 10 lots, you will only open with a fixed lot(s) that you set, in the above example, it is set to be 1 lot.
